THE PROBLEM

Selling cars is the easy part. The admin is eating your margin.

~30 minutes per car

Re-typing the same advert across Auto Trader, eBay, Facebook and more - one at a time.

Leads go cold

Enquiries land evenings and weekends. By the time you reply, they've messaged five other forecourts.

Buying blind

Stock bought on gut, priced by guesswork - one car that sits 60 days eats the margin from three good sales.

WHAT IT COSTS

£8,400
lost every year

by the average UK forecourt. Slow listings keep cars sitting; missed leads send buyers elsewhere; stock bought on gut ties up cash. Money walking out before a single car is sold.

Revva gives it back.

WHY REVVA IS DIFFERENT

Most tools file your paperwork. *Revva does your thinking.*

A DMS is a filing cabinet - it stores what you already know. Revva is the brain of your forecourt.

Sees

Your stock, every enquiry,
and live market prices -
read continuously.

Thinks

What's selling, what to
price up, and - the bit no
one else does - what to
buy next.

Acts

Lists on 8 channels,
cleans photo
backgrounds, answers
every buyer, follows up
past customers.

Learns

Every sale and enquiry
tunes its advice to your
forecourt - not a generic
average.

HOW IT WORKS

Four steps. Under a minute. Zero re-typing.

1

Scan the plate

Revva pulls the car's full spec in seconds.

2

AI does the work

Writes the advert, studio-cleans photos, prices to market.

3

Live everywhere

Published to all 8 channels at once.

4

Smart inbox

Every lead scored and answered for you.

ONE SCAN, EVERY CHANNEL

List it once. **Live on 8 channels.**

One car, scanned once.

AI ranks every enquiry so you chase the buyers who'll actually buy.

Answered in < 90s

A reply drafted and sent automatically - day or night.

Then it follows up

MOT reminders, win-backs and review requests to past customers - drafted for your approval.

GROW YOUR MARGIN

Like a strategy consultant **on your forecourt.**

Revva learns from every listing, lead and sale - then tells you what's selling, what to price up, and what to buy next.

WHAT REVVA SEES

- **Fastest sellers** Diesel estates - avg 18 days
- **Slowest sellers** Petrol SUVs 60k+ - avg 47 days
- **Cash tied up** £31k in stock over 15 days old

WHAT REVVA TELLS YOU

- ↑ **Buy more** Compact diesels in white & grey
- £ **Price up** Your Golf GTI is £755 under market
- × **Ease off** High-mileage petrol SUVs

It all lands in a Monday-morning report - your forecourt's numbers turned into your next move.

THE DIFFERENCE

From hours of admin to one scan.

THE OLD WAY

- ✗ List every car manually - 30 min each
- ✗ Log in to four or five platforms
- ✗ Buy stock on gut feel
- ✗ Photos & pricing by guesswork
- ✗ Leads missed evenings & weekends
- ✗ Past customers forgotten after the sale

WITH REVVA

- ✓ One scan - live in 52 seconds
- ✓ Published to 8 channels at once
- ✓ Know what to stock - and what to avoid
- ✓ Studio photos, priced to live market
- ✓ Every lead answered in under 90s
- ✓ MOT reminders & win-backs sent for you

WHAT YOU GET

Less time on screens. More cars out the gate.

52 sec

From plate to a live, priced advert - on 8 channels.

28 min

Saved on admin for every single car you list.

2.8x

More enquiries on listings with great photos.

24/7

Every buyer answered - even at 9pm on a Sunday.

WHY TRUST IT

We didn't guess. *We asked.*

Revva is built on 20+ structured interviews with independent UK dealers - not assumptions. We sat in the forecourts, watched the workflow, and built exactly what wastes your time. Zero marketing spend; just real conversations.
